

Swimming at The Willows Primary School

This academic year we started with all Year 6 non-swimmers to continue to develop their swimming skills and hopefully get them to progress to achieving their length certificates.

Once the number of year 6 children had started to decrease due to achieving their lengths we then went to Year 5 children who were non-swimmers and they swam to progress to their lengths. Once the majority of those children had achieved their length certificates we then went to Year 4 children and full classes went swimming for a block of weeks each.

Academic year 2018-2019 86% of our year 6 cohort have achieved their length certificates.

Our plans for the next academic year are to continue with the current year 4 children who are going to year 5 who haven't yet achieved their length certificate. We will then put some intense swimming time into the year 6 children who haven't yet secured their length certificate to hopefully increase our percentage for the next academic year.
