

Seesaw Child Guide

Part 1 – Children login

Go to <https://app.seesaw.me> on a computer. Or install the Seesaw Class App on an iOS or Android device.

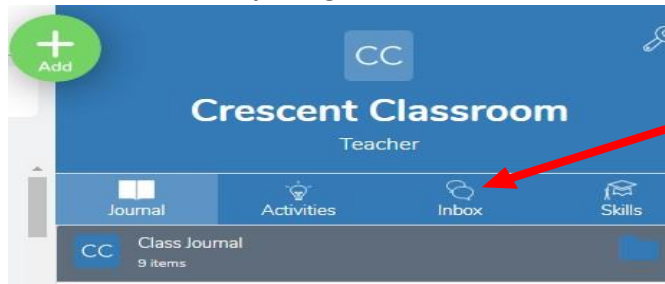

Choose "I'm a Student".

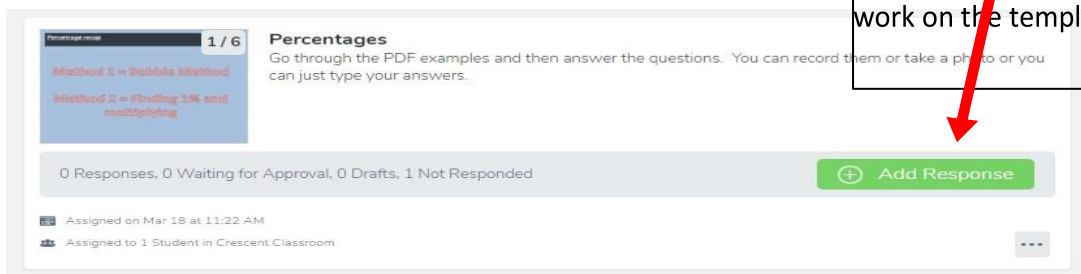

Next, type in your child's personal login details (made up of 12 letters) provided by your child's class teacher.

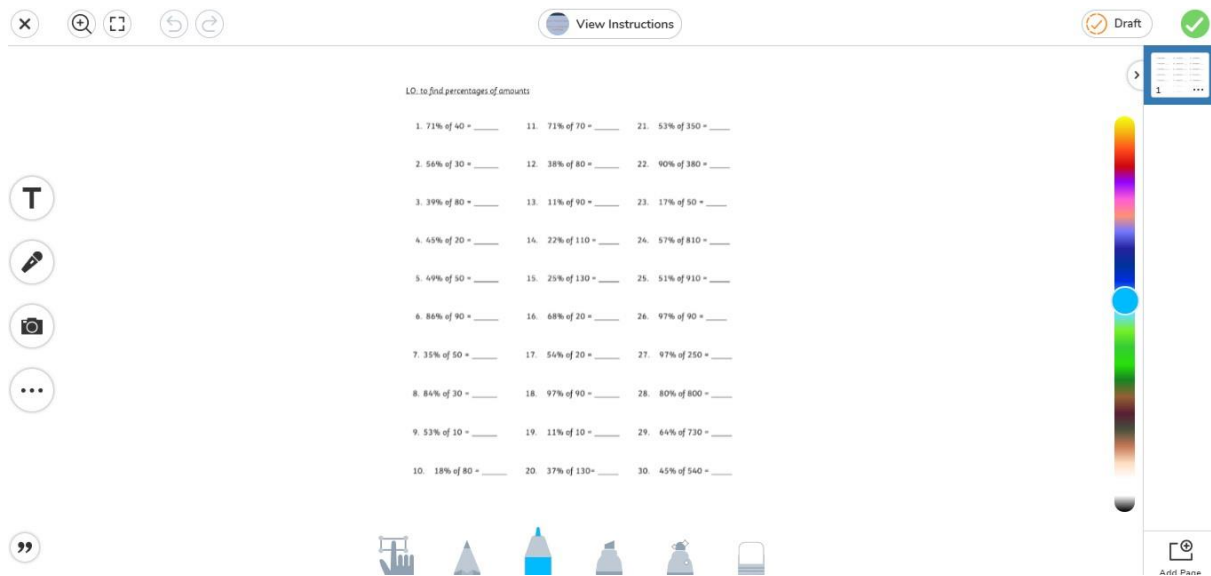

Part 2 – Children completing their work.

1) All activities and messages can be found here.

2) In the activities section, you can click add response where you can either upload or complete your work on the template provided.

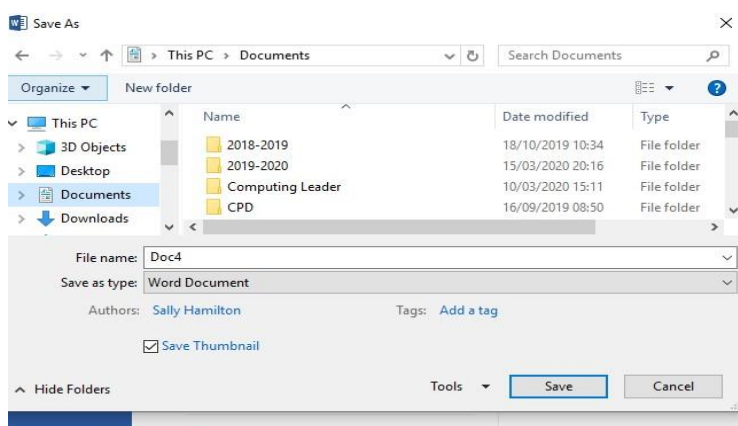

4) The children can respond by writing over the top with a stylus/finger or add text boxes. They can also record their answers verbally using the microphone option. Alternatively, they can complete their work on paper and upload a photo of their work. This may be the useful option if you have more than one child using seesaw at home.

5) Click the tick to submit.

6) If you receive feedback from your teacher, it will appear in your inbox under notification.

Part 7 – Converting to PDF

You can only upload photos, jpg or pdfs onto seesaw. To convert a document to a PDF you click SaveAs and then change the Save as Type to PDF. (You can't upload word documents to seesaw so they will need to be converted before uploading)
